WHY THE BEST DRESSED SPA TABLES WEAR COMPHY.

As the inventor, leader and innovator of linens for the Spa industry, Comphy continues to set the bar higher for quality sheets, blankets and other products created with spa needs in mind. In addition to the famous Comphy soft feel, the sheets are treated for stain release and guaranteed for up to 1 year. The sustainable, eco-friendly microfiber is not only recyclable, it's extremely cost-efficient. Of course, there's also the full inventory of products to elevate the look of any treatment room, and the excellent personalized customer service that our clients have come to rely on and expect from Comphy.

COMPHY WAS DEVELOPED FOR SPA, DESIGNED FOR AHH.

Luxury. Quality. Durability. Service.

We are proud to be the leading provider of linens to the spa world, and now the benefits of our luxurious fabrics

are available for your home. Comphy products offer the best in durability, sustainability, design and quality. In addition, Comphy is known for excellent customized service. Most importantly, Comphy linens live up to their name. The indescribably soft feel of the high-performance, superior microfiber is comparable to 600 thread count sheets. You have to feel it to believe it!

A COMMITMENT TO INNOVATION.

Comphy linens took a lot of passion and hard work to develop. Founder Mia Richardson, a spa director at the time, made it her life's mission to develop the most innovative luxury linens imaginable for the spa industry, and the research and development took years of trial and error. Thankfully, success was achieved. We are committed to always setting the bar higher for excellence. While others imitate, we innovate.

THE COMPHY GUARANTEE

Each sheet is guaranteed for up to 1 year for home retail use and for operational use against product defect, provided the sheets are laundered in accordance with our recommended laundry instructions and are used for the manner intended, we will at our option, repair or replace any sheet that fails to be serviceable.

SLEEP BETTER ON THE LINENS OF YOUR DREAMS

We engaged a research firm to study the sleep habits and patterns of test participants, and results show people sleep two hours longer, fall asleep faster and wake up less frequently when sleeping on Comphy sheets. We spend a third of our lives in bed—so spend it well.

OUR GREEN STORY

Navigating the world of sustainable linens can be as multi-layered as a fully-dressed bed. There are many factors to consider when you're trying

to make the smarter choice. At Comphy, not only do we understand this, we've made it a priority in everything we do.

Eco-friendly reasons to choose Comphy:

Comphy linens use less energy than any alternative. They're lighter than cotton, therefore they dry faster.

Comphy linens are recyclable.

Comphy linens last 2-3 times longer than a standard cotton sheet. Replacing your sheets less frequently significantly adds to sustainability.

Comphy linens are wrinkle free. You'll use less energy from pressing equipment.

SLEEP KIT

Our new SLEEP BY COMPHY products were created with natural sleep-inducing ingredients to help users drift off easily and sleep softly all night, but they can help you provide an even better spa experience, too. To create a relaxing environment during a treatment, spritz the linen spray, then light the candle and tune in to the specially curated playlist. As a bonus, the client can take the Sleep Kit home to recreate the experience, and they'll feel especially pampered when you offer this upgrade to any treatment.

PRODUCT FEATURES

Each kit contains:

- 4 oz Bath Salts
- 4 oz Candle
- 80 ml Linen Spray
- Comphy Pillowcase
- Sleep Playlist

COMPHY FACE MASK

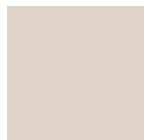

Who says face masks can't be Comphy? Finally, a mask that is as comfortable as it is safe. WOOL DRYER BALLS

Alpaca Dryer Balls (set of 5) are an eco-friendly alternative to fabric softeners and dryer sheets. Great for sheets, towels, down comforters/blankets, baby items and especially cloth diapers.

PRODUCT FEATURES

- Handmade in USA from local farm-raised Alpaca wool
- Zero lanolin
- Hypo-allergenic—no harmful chemicals or perfumes added
- Decreased drying time
- Eliminates wrinkles and reduces static

For first use, run dryer balls through dryer cycle with wet towels. Pilling over time is normal. To clean dryer balls, run under hot water, add a few drops of dish soap, lather, rinse under warm water first, then cold water. Air or machine dry.
